

FSC Certified Wood Doors

Builders' Hardware is proud to have received our chain-of-custody (COC) certification from the Forest Stewardship Council (FSC). This means that through the chain-of-custody process, we are able to provide our customers with FSC certified wood door products that satisfy LEEDS building requirements.

LEED™ Credits

When bidding a project, make sure to ask your "supplier of choice" if they will be able to produce an FSC –COC Number with all invoices to ensure that you will receive the appropriate LEED™ Credits.

WE ARE PART OF THE SOLUTION.

You are the other part of the solution.
